Did you know...

Every year 1,700 college students die from alcohol-related injuries, including motor vehicle crashes. These deaths are also linked to alcohol poisoning so it is important for students to be aware of their limits. Plan ahead, think now about your reasons to drink or not drink. Make a choice to be safe. Use protective behaviors if you choose to party. Be aware of the symptoms and watch out for others.

Want to become involved or have questions about alcohol and other drugs?
E-mail Islander.alcohol-education@tamucc.edu.
